How to Use This Book

Step 1: Trace It

Each character starts as dashed gray lines. Trace them with a pencil. Press lightly. Do it twice if you want.

Step 2: Copy It

Now the real practice. Look at the drawing at the top of the page and draw it yourself in the box. It will not look perfect. That is the point.

Step 3: Color It

The last page is a bold outline made for coloring. Use markers, pencils, crayons, or paint. Color inside the lines or ignore them.

Tips

- Print at 100 percent on US Letter paper. Do not shrink to fit.
- Regular printer paper works for pencils. Use heavier paper if you color with markers.
- Go slow on the first character. They get easier.
- Print as many copies as you like for yourself and your family.
